

KOTTAPALLI VAMSI

Backend & AI/ML Engineer

+91-8985986664 | vamsi2562006@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

SUMMARY

CSE undergraduate specializing in backend engineering and AI/ML systems, with hands-on experience building production-grade RAG pipelines and full-stack applications using Node.js, FastAPI, PostgreSQL, and LangChain. Delivered end-to-end AI-integrated systems from clinical documentation platforms to real-time WebRTC apps, recognized across national and international hackathons.

EDUCATION

Anil Neerukonda Institute of Technology & Sciences, Visakhapatnam <i>B.Tech in Computer Science and Engineering — CGPA: 8.93/10</i>	2023 – 2027
Sasi Junior College, Tanuku <i>MPC — 97.7%</i>	2021 – 2023

EXPERIENCE

Data Analysis Intern APSSDC – Govt. of Andhra Pradesh	May 2025 – July 2025
- Performed EDA on real-world datasets using NumPy and Pandas; built a weather forecasting analysis project. - Cleaned and preprocessed multiple real-world datasets, applying data preprocessing and visualization techniques to improve analysis accuracy.	

PROJECTS

Clinical Note Intelligence Platform GitHub <i>React, Python, Node.js, FastAPI, Whisper, spaCy, PostgreSQL, Prisma, Redis, Ollama</i>	May 2026 – Present
- Architected a full-stack clinical documentation system with multi-role RBAC (Doctor, Nurse, Receptionist, Admin), JWT refresh rotation, and Redis-backed sessions. - Engineered a multi-stage audio AI pipeline (Whisper + medical correction layer + speaker diarization), targeting <5% manual correction vs. 20–40% industry baseline. - Implemented SOAP note generation, medical NER (spaCy/SciSpacy), drug interaction detection (RxNav), and ICD-10/CPT code suggestion via Ollama-powered LLM reasoning with sentence-level audio traceability. - Developed longitudinal patient intelligence tracking for BP, glucose, and chronic disease trends across visits, auto-generating “What changed since last visit?” summaries.	
Medical Literature Research Assistant GitHub <i>Python, FastAPI, LangChain, FAISS, Ollama, Llama, React.js</i>	Feb 2026 – Mar 2026
- Designed hybrid retrieval (BM25 + FAISS) with score fusion (0.6/0.4 weighting), achieving 78.5% precision vs. 65% for BM25 alone. - Engineered a multi-stage RAG pipeline spanning ingestion, 384-dim embeddings, hybrid retrieval, ranking, LLM synthesis, and hallucination detection, processing 5K PubMed abstracts. - Implemented safety-critical features: query classification (emergency/diagnosis/treatment), 5-factor confidence scoring, and citation validation for medical accuracy. - Integrated RxNav and ClinicalTrials.gov APIs for real-time drug interaction and trial retrieval.	
Real-Time Messaging & Video Platform GitHub <i>React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Socket.IO, Cloudinary</i>	Nov 2025 – Jan 2026
- Developed a full-stack real-time communication platform on the MERN stack with Zustand state management, secured via OTP, JWT, and bcrypt authentication. - Implemented a low-latency Socket.IO messaging system using an in-memory Map for O(1) socket routing, enabling instant messaging, read receipts, and typing indicators. - Added peer-to-peer video calling using WebRTC, handling SDP offer/answer negotiation and ICE candidate exchange over WebSockets. - Designed a media pipeline using Multer for stream parsing and Cloudinary CDN for image and video storage and delivery.	

TECHNICAL SKILLS

Languages: C, Java, JavaScript, Python, C++
Frontend: React.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication, Redis
Databases & ORM: MongoDB, PostgreSQL (Prisma ORM), FAISS (Vector DB), BM25
DevOps & Tools: Docker, Git, GitHub, Postman, VS Code, Anti Gravity
AI/ML & Data: LangChain, Ollama, RAG Pipelines, Whisper, NumPy, Pandas, Data Structures & Algorithms

ACHIEVEMENTS

- Selected for the IEEE National Hackathon Final Round among 3000+ teams nationwide.
- HACK24 Finalist: Delivered a fully functional exam preparation web app within 24 hours.
- National-Level Hackathon (Govt. of India): Developed a web application representing ANITS College.
- Solved 500+ Data Structures & Algorithms problems on LeetCode.
